

No	project title
1	Effect of endometrial abrasion on pregnancy rate in IUI cycle
2	Effect of steroid hormones on interaction between mouse embryos and human endometrial cells
3	Comparison of two models of endometriosis in mice using human endometrial tissue fragments and endometrial CD90 + cells
4	Comparison of growth status and Development of children using assisted reproductive techniques with normal children 1-6 years
5	Evaluation of the effect of endometriosis - Is there a relationship between endometriosis and its surgical treatment and sleep status and quality of sexual activity in patients? On the quality of sleep and sexual activity of patients referred to the Comprehensive Gynecology Hospital from 2012
6	The effect of venlafaxine and citalopram in the treatment of sleep disorders in menopausal women in Mirza Kouchakkhan and Valiasr Hospital in 2012
7	Evaluation of thyroid help in women with Benign breast diseases
8	Evaluation of common EGFR gene mutations in women with uterine fibroids
9	Evaluation of the severity and incidence of uterine adhesions (Asherman syndrome (postoperative myomectomy by alpartomy) and laparoscopy, and their comparison
10	Comparison of the effect of black seed and zolpidem In the treatment of sleep disorders in menopausal women in the comprehensive gynecological hospital
11	(Evaluation of therapeutic results of patients with GTN (Trophoblastic Gestational Neoplasms)
12	Evaluation of urodynamic test results in patients with pelvic organ prolapse with and without urinary incontinence 1
13	Comparison of the effect of two treatment regimens in contraception Premature and association of interleukin-6 and 8 cervicovaginal markers with labor pains in primiparous pregnant women in 2006
14	Evaluation of the effect of cabergoline on the prevention of ovarian hyperstimulation syndrome in patients Perception in ART
15	Improving the quality of frozen-thawed sperm by rapid cryopreservation using antioxidants
16	Evaluation of the effect of acupressure in the treatment of nausea and vomiting during pregnancy
17	Evaluation of diseases and pregnancy, childbirth and lactation in reliable sources of Iranian medicine
18	Gene mutation relationship Related to thrombophilia in women with recurrent miscarriage and normal karyotype with protein activity c, s, homocysteine level and blood group
19	Evaluation of the success of treatment with single dose methotrexate in ectopic pregnancy by measuring plasma creatine phosphokinase levels in gynecological hospital and Vali Asr hospital
20	Promoting the health of adolescents and young people through integration in the health network with SDH approach in District 5 of Tehran Municipality And causes of drug use during pregnancy in women in Tehran in 2011
21	Evaluation of common microbial agents causing sexually transmitted infections in the female genital tract aged 15 to 5 years by conventional laboratory methods and PCR-m method
22	Evaluation of types and causes of drug use during pregnancy in women in Tehran in 2011
23	The effect of calcium-vitamin D supplementation in patients with polycystic ovary syndrome Candidate IVF referred to Valiasr clinic
24	The effect of hypothyroidism treatment on the course of diseases Breast benignity in women referring to Arash Hospital Breast Clinic

No	project title
25	Comparison of the effect of GNRH agonist with vaginal progesterone to support the luteal phase in controlled cycles of ovulation stimulation and intrauterine insemination in patients referred to the infertility ward of Women's Hospital in 2012
26	(Comparison of results Single drug therapy in patients 1996-2006(GTN risk
27	The effect of moringa oleifera oil leaf extract on the reduction of blood lipids in PCO patients
28	Pre-diagnosis of beta thalassemia in Armenia
29	Evaluation of the effect of Yasmin oral contraceptive pill in a model Menstruation - Premenstrual syndrome, general being-well and quality of life of Iranian women referred to family planning clinics under the auspices of Tehran University of Medical Sciences in 2005 (, observational clinical study)
30	studies on the effect of intensive obstetric care during labor on pain intensity And the results of delivery in women referred to the selected hospital in 2006-2007
31	Association of serum levels of vitamin B12 (Cubalamin) with BMD bone mineral density in patients referred to the imaging center of Imam Khomeini Hospital 2007
32	Opioids in delaying preterm delivery in mice
33	Evaluation of the effectiveness of acupuncture in increasing the success of ICSI / IVF
34	Evaluation of temperament type of infertile couples referred to Reproductive Health Research Center, 2006: A qualitative study
35	Comparative study of quality of life and sexual function after Delivery in two groups of normal delivery and cesarean section in Mirza Koochak Khan Hospital in 2006-2007
36	Three-dimensional study of capillary network differentiated from human umbilical cord blood mesenchymal stem cells with expression of endothelial cell growth factor receptor
37	Comparison of common mutations in beta-thalassemia patients WinterMedit
38	Evaluation of biological properties of tumors Breast cancer manifestation method in patients aged 25 years or less in patients admitted to the surgical wards of the Cancer Institute from 2001 to 2011
39	Evaluation of sperm chromatin damage in infertile couples with unknown cause unexplained Infertility And its relationship with pregnancy rate in IUI
40	method Investigating the limitations of sexual and family health research in Iran: A qualitative study
41	Investigating the level of antimullerian hormone AMH in follicular fluid Evaluation of polycystic ovary syndrome (PCOS) and its relationship with IVF outcome
42	Evaluation of the effect of human growth hormone on ovulation stimulation results in women over 40 years of age ART candidate in Valiasr Hospital Infertility ward
43	Pilot project Comprehensive approach to prevention and control of genetic disorders causing birth defects Growth and Developmental Disorders
44	Evaluation of the effect of acupuncture in ICSI-IVF in vitro fertilization cycles on people with polycystic ovary syndrome
45	Evaluation of the consequences of post-infertility pregnancies in first-time pregnant women referred to selected infertility centers in Tehran 2011
46	Promoting the health of adult women 25-60 years old Insurance Town, District 5, Tehran Municipality
47	Study of the role of locus cereus nucleus and central and peripheral alpha 2 receptor adrenergic system in rat polycystic ovary model
48	Evaluation of celiac disease in women with infertility referred to Rouin Ton Arash Hospital
49	Evaluation of tumorigenicity of male germ cells in immature male mice during Myc-C gene activity, after transplantation into mice with

No	project title
50	immune deficiency The role of cold stress in the model of polycystic ovary syndrome in rats, before and after Modeling
51	Association of erythroblast in maternal blood with preeclampsia in pregnant women referred to Mirza Koochakkhan Hospital 2005-2006
52	Evaluation of the effect of simvastatin on biochemical parameters and ICSI-IVF results in patients with polycystic ovary disease- Blind with Palsbo Evaluation of the effect of intraperitoneal carbopaltin consolidation treatment in advanced ovarian epithelial cancers
53	Human sperm cryopreservation - Comparison of two cryopreservation methods and four types of cryoprotectants
54	Evaluation of serum levels of vitamin D and related markers in men with male infertility factor Referral to infertility clinic and fertile men
55	Evaluation of diagnostic value of PCR test in the diagnosis of genital tuberculosis in infertile women referred to infertility clinic of Valiasr Hospital
56	Isolation, purity, proliferation and freezing of testicular spermatogonia stem cells
57	Comparative study of response to ovulation stimulation in follicular phase with ovulation stimulation in luteal phase with response to infertility in patients in Duostime in the same ovarian cycle Double stimulation Weak protocol referred to Valiasr infertility clinic during 2018-19
58	The effect of educational intervention based The effect of seminal fluid plasma injection into the vagina during ovulation during IVF on the incidence of pregnancy
59	on the incidence of seminal fluid antioxidant enzymes on sperm parameters and DNA failure in infertile men, according to Precede model on self-care of primiparous women in the first 6 months after delivery. Comparison of the effect of misoprostol and isosorbide mononitrate on cervical softening in women candidates for hysteroscopy
60	Study, analysis and promotion of genetic counseling software
61	Evaluation of vascular Doppler indices Of embryos in patients with premature rupture of amniotic sac during hospitalization and termination of pregnancy and comparison of its changes with neonatal outcome
62	Evaluation of the relationship between PCB and PBDE of persistent organic pollutants in serum of pregnant women and gestational diabetes and preeclampsia and identification of determinants Contaminants in food, environment and women's behaviors
63	Animal studies of molecular mechanisms inducing spermatogonia stem cells to differentiate
64	Study of the effect of Scannibal plant extract on survival, proliferation, angiogenesis, apoptosis and oxidative stress in human endometrial lesions and endometrial lesions Culture medium
65	Psychological evaluation of patients referred to Pelvic Flora Clinic for requesting genital cosmetic surgery considering stage
66	Evaluation of the effect of intraperitoneal infusion of normal saline and pulmonary rehabilitation maneuver in reducing shoulder and upper abdominal pain after laparoscopy in elective surgery Gynecology
67	Molecular analysis and evaluation of VEGF gene expression in endometriosis
68	The effect of clonidine on changes in ADR $\beta$ 2 and ADR $\alpha$ 2 gene expression in ovarian cumulus cells in infertile patients with polycystic ovary syndrome
69	Comparative study of the effectiveness of oral administration of maltonin on the expression of follicular cell genes in infertile women under phase IVF cycle
70	Evaluation of the effect of beta-3 adrenoceptor gene polymorphism in patients with polycystic ovary syndrome Infertility of Vali-e-Asr Hospital

No	project title
71	The effectiveness of vitamin D on reducing myoma size in comparison with the control group in women referred to Yas Hospital
